Alcaldeessa de Sitges

Ajuntament
de Sitges

Benvolgudes i benvolguts,

És un honor per a mi, com a alcaldessa de Sitges, dedicar aquestes paraules a totes les persones que formen part de la celebració de la Sitges Pride 2025. Aquesta manifestació és molt més que una festa; és un símbol de llibertat, diversitat i respecte, una expressió de la nostra vila com a espai obert, inclusiu i acollidor per a tothom.

Sitges és una vila oberta, és un referent en el col·lectiu LGTBI i un lloc on la diversitat sexual i de gènere es viu amb respecte i normalitat. La nostra vila ha acollit des de fa anys el col·lectiu LGTBI i ja fa temps que som amfitrions d'esdeveniments que promouen la igualtat i la visibilitat, convertint-se en un punt de trobada de persones de tot el món que comparteixen els valors de respecte i llibertat.

Enguany, la Sitges Pride 2025 arriba amb més força que mai, consolidant el nostre compromís amb la lluita contra qualsevol forma de discriminació. És un moment per reivindicar els drets de totes les persones, per recordar que la diversitat ens enriqueix i que la lluita per la igualtat encara té molt camí per recórrer.

Malauradament, les discriminacions per orientació sexual o de gènere encara són esteses en diversos països i al nostre voltant creixen uns discursos d'odi als quals ens hem d'oposar frontalment.

A Sitges, però, a més de la reivindicació volem compartir les nostres ganes de passar-nos-ho bé, de fer festa i de gaudir de la nostra vila. A Sitges reivindicarem i també celebrarem la vida en el nostre magnífic entorn. Perquè hi ha pocs llocs al món on la Pride pugui celebrar una desfilada al costat del mar i seguida per milers de persones, que donen suport al col·lectiu LGTBI i que volen gaudir de la vida que tenim Sitges.

Vull felicitar tota l'organització, voluntariat i participants que fan possible la Sitges Pride, i també agrair a la ciutadania de Sitges per mantenir viu l'esperit de tolerància i respecte que ens defineix. Que aquesta celebració sigui un exemple de solidaritat, alegria i esperança, i que ens impulsi a seguir treballant per un món on tothom pugui ser qui vol ser en total llibertat.

Visca la Sitges Pride 2025!

Estimadas y estimados,

Es un honor para mí, como alcaldesa de Sitges, dedicar estas palabras a todas las personas que forman parte de la celebración de la Sitges Pride 2025. Esta manifestación es mucho más que una fiesta; es un símbolo de libertad, diversidad y respeto, una expresión de nuestra villa como espacio abierto, inclusivo y acogedor para todos.

Sitges es una población abierta, es un referente en el colectivo LGBTI y un lugar en el que la diversidad sexual y de género se vive con respeto y normalidad. Nuestra villa ha acogido desde hace años al colectivo LGBTI y hace ya tiempo que somos anfitriones de eventos que promueven la igualdad y la visibilidad, convirtiéndose en un punto de encuentro de personas de todo el mundo que comparten los valores de respeto y libertad.

Este año, la Sitges Pride 2025 llega con más fuerza que nunca, consolidando nuestro compromiso con la lucha contra cualquier forma de discriminación. Es un momento para reivindicar los derechos de todas las personas, para recordar que la diversidad nos enriquece y que la lucha por la igualdad todavía tiene mucho camino por recorrer. Desgraciadamente, las discriminaciones por orientación sexual o de género todavía están extendidas en varios países y a nuestro alrededor crecen unos discursos de odio a los que debemos oponernos frontalmente.

En Sitges, sin embargo, además de la reivindicación queremos compartir nuestras ganas de pasarlo bien, de hacer fiesta y de disfrutar de nuestra población. En Sitges reivindicaremos y también celebraremos la vida en nuestro magnífico entorno. Porque hay pocos lugares en el mundo donde la Pride pueda celebrar un desfile junto al mar y seguido por miles de personas, que apoyan al colectivo LGBTI y que quieren disfrutar de la vida que tenemos Sitges.

Quiero felicitar a toda la organización, voluntariado y participantes que hacen posible la Sitges Pride, y también agradecer a la ciudadanía de Sitges por mantener vivo el espíritu de tolerancia y respeto que nos define. Que esta celebración sea un ejemplo de solidaridad, alegría y esperanza, y que nos impulse a seguir trabajando por un mundo en el que todo el mundo pueda ser quien quiere ser en total libertad.

¡Viva el Sitges Pride 2025!

Dear and beloved

It is an honor for me, as mayor of Sitges, to dedicate these words to all the people who are part of the Sitges Pride 2025 celebration. This event is much more than a party; it is a symbol of freedom, diversity and respect, an expression of our town as an open, inclusive and welcoming space for everyone.

Sitges is an open town, it is a benchmark in the LGBTI community and a place where sexual and gender diversity is experienced with respect and normality. Our town has welcomed the LGBTI community for years and we have been hosting events that promote equality and visibility for some time, becoming a meeting point for people from all over the world who share the values of respect and freedom.

This year, Sitges Pride 2025 arrives with more force than ever, consolidating our commitment to the fight against any form of discrimination. It is a moment to claim the rights of all people, to remember that diversity enriches us and that the fight for equality still has a long way to go. Unfortunately, discrimination based on sexual orientation or gender is still widespread in several countries and hate speech is growing around us that we must oppose head-on.

In Sitges, however, in addition to claiming, we want to share our desire to have a good time, to party and to enjoy our town. In Sitges we will claim and also celebrate life in our magnificent surroundings. Because there are few places in the world where Pride can hold a parade by the sea and be followed by thousands of people, who support the LGBTI community and who want to enjoy the life that we have in Sitges.

I want to congratulate all the organization, volunteers and participants who make Sitges Pride possible, and also thank the citizens of Sitges for keeping alive the spirit of tolerance and respect that defines us. May this celebration be an example of solidarity, joy and hope, and may it inspire us to continue working for a world where everyone can be who they want to be in complete freedom.

Sitges:

a cosmopolitan and vibrant city with a unique charm

The beautiful, charming and festive Sitges is one of the most fascinating tourist resorts on the Catalan coast.

A few minutes from the centre of Barcelona, with more than 20 kilometres of coastline, the town is a popular destination for gay travellers. They often say that the cosmopolitan Catalan population is one of the gay capitals of Europe. During the day there is a relaxed, open and pleasant atmosphere, gay couples are at ease having fun and socializing on the beach, and at night a large number of gay clubs and bars enter into play.

With the arrival of June, and the ensuing high temperatures and warm weather, one reminisces about long journeys on the beach or the glorious sunsets on any of the terraces on the seafront; a relaxed dinner in any charming place, while you taste any dish of delicious Mediterranean cuisine, and long festive nights. Sitges is a beach town, relaxed by day, but with a truly amazing gay nightlife around Carrer Primer de Maig, Plaça Indústria, Calle Joan Tarrida and Carrer Bonaire. A magic ambience. The town has always been a place that has charmed tourists and artists. The great secret is its beautiful light and 300 days of sunshine a year, as verified by the artists who, at the end of the 19th century, settled there.

Nature has also been generous with the Sitges: the town has the great privilege of being located on the shores of the Mediterranean and at the foot of the Garraf massif. In the cultural sphere, the legacy is extraordinary: art is very much alive and traditions are maintained with modernity. It has preserved important references from past times and the old fishing village and offers visitors an important architectural heritage. In addition, it enjoys a cosmopolitan character thanks to the heterogeneity of its population, where more than 70 different nationalities coexist. Sitges aims to remain a city that attracts and seduces.

Culture

Heritage with an added value
and a vibrant and freshly
intensive cultural agenda

Culture is one of Sitges' identifying traits.

At the end of the 19th century, a homegrown generation of impressionist painters obsessed with the luminosity in paintings emerged and, shortly afterwards, the town became a modernist hub promoted by Santiago Rusiñol. Sitges has always been in communion with the arts. such a flame is alive and reflected in our heritage. in the occurrence of many different festivals. and the close relationship of many artists with the population.

Modernism and Noucentisme were two cultural and aesthetic currents that modernized and brought Europe to Catalonia at the end of the 19th century and the beginning of the 20th. Sitges was one of the most important irradiation points. Today's legacy is an impressive architectural ensemble of remarkable value. The large number of mansions and large manors built by returning Sitgetans from Cuba is a good example. There are also majestic architectural ensembles like Maricel, Mercat Vell, Miramar, Jardins de Terramar, among others.

1.000 years of art history. The magnificent heritage is also evident in the array of museums in town which cover a wide range of history. The Maricel Museum goes from Romanesque and Gothic to the 20th century. Cau Ferrat is one of the main museums of modernism

in Catalonia, also it contains other collections, including works by Greco and Picasso. The Stampflí Foundation exhibits an outstanding collection of contemporary art, and the Romantic Museum (now under construction) specializes in the 19th century. There's also the Maricel Palace, an architectural gem of Noucentisme that can be visited at specific times

The Festival Village. Sitges holds around 15 festivals throughout the yer. some having international projection. Fantastic Cinema (October) is the most important, there are others such as Jardins de Terramar (July-August). the LGTB + Endimaris cinema (May), the Sitges Next advertising (November). Jazz Festival (April) or Sitges Dona (September). among several proposals.

Shopping

More than 500 different concerns that sells variety and quality

Sitges is a remarkable commercial hub in terms of variety and quality. With a long history as shoe makers and artisans, the town offers a wide range of shopping options. Even considering that the town is rather small, there are several options at the center offering a large variety of clothes and accessories.

The municipality flaunts more than 500 different concerns selling clothing and accessories, crafts, decoration and art galleries. In addition, the flexible opening hours of the shops make it possible to buy any time. While some close at noon, from 10 a.m to 2 p.m and from 5 p.m to 8.30, many do keep their doors open throughout the day. During the summer, they can extend opening hours to 21 hours or more, adapting to demand.

There are a few streets right in the center around Cap de la Vila, such as Carrer Major, Carrer Sant Francesc, Carrer de les Parellades and Carrer Jesus, which are entirely truffled with a large number of shops. In these streets you can find from clothing to quality gastronomic products. On top of shopping, you will enjoy the most famous streets in the old town.

Just to put it down in a few words, strolling through a maze of alleys you will discover many Top Brand clothing stores, as well as souvenir shops, curios, decorations or just a place to drink a coffee and relax.

Gastronomy

Dishes to enjoy the best cuisine

Beyond the sun and the beach, one of the things that visitors look for when they arrive in Sitges are restaurants to enjoy the local, Mediterranean and universal cuisine. In Sitges, your will be able to discover unique dishes and wines, typical of the town and with many different flavors that will always remain in your memory.

Most dishes are typically Mediterranean, such as rice and fish, but if there is one star dish it is, without a doubt, the popular *xató*. A first course that is curiously consumed in winter, around Carnival, despite being a kind of salad that can be enjoyed at any time of year. It is made with endive, crumbled cod, tuna, anchovies,

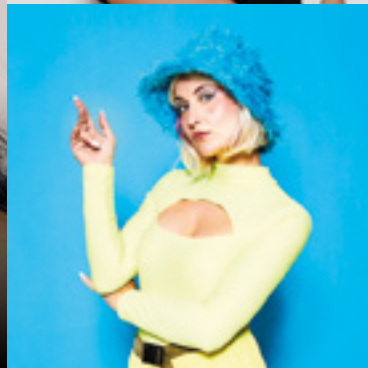

arbequina. But the special grace and touch is the sauce that gives the dish its name: the *xató* sauce. The sauce is made with toasted almonds and hazelnuts, garlic, *nyoras*, fried bread, oil, vinegar and salt.

Another typical dish is the *Sitgetana* rice, a typical dish that fishermen cooked when they went out to sea. It combines seafood, such as prawns and cuttlefish, with mountain products, such as pork chops and sausages, as well as fish and meat broth in equal parts. One feature that makes this rice unique is that it is made with *Malvasia de Sitges*.

Precisely, the *Malvasia de Sitges* is also one of the main legs of the town's gastronomy and the most representative wine, which differentiates Sitges from other towns. With a very fine texture and an aromatic and sweet taste, it is made with the grape variety that bears its name: *malvasia*. It is distinguished from others from all over the Mediterranean by the climate of the *Garraf Massif*.

Apart from the typical Sitges dishes, in the town, you will find a wide range of quality restaurants with a varied offer: pizzerias, oriental restaurants, fusion cuisine, places with a wide range of *tapas* ... In short, options for everybody.

Beaches

7 beaches in the same municipality

Sitges is a town configured mainly around the sea. The municipality begins on the other side of the Garraf massif, near Castelldefels, and also ends after another range of mountains, the Colls - Miralpeix. All along this coastal

In this strip of land, there are beaches: up to 17 different ones, from large beaches with piers to small coves of different characteristics and sizes, which have in common the Mediterranean sun.

The 17 beaches makes Sitges one of the most touristic municipalities in Catalonia. In 2022, the beaches of Sitges are launching their new bars and services, which will allow the image to be updated and modernized and provide even better features.

With this new vision, the beaches will come to life during the entire day and night. During the day as spaces to enjoy the sea, the sun and all kinds of services. At noon and at night they become a space for lunch or dinner à la carte, with increasingly elaborate gastronomic proposals. And from the evening they are a stage of events, with parties, concerts, where you can enjoy the magic of the sunsets in the Mediterranean.

Long beaches and smaller coves. Urban and other natural beaches. Family beaches and other nudists... Sitges offers a complete offer to enjoy the sea and its services as we deserve.

Tribute and Claim in Sitges

The Brude Gallery, Sant Pere Street 26 in Sitges, presents an exhibition dedicated to Costus, entitled *Movidas y Agitadas*. With this suggestive title, the question is raised: "Is the party over for us?". An exhibition that seeks to claim the work and legacy of these artists, fundamental to the Spanish cultural scene of the eighties.

Today, talking about Enrique Naya and Juan Carrero, Costus, is more necessary than ever. They were more than an artistic duo; they were essential protagonists of a historical, cultural and social moment that transformed Spain from the very depths of creativity and freedom. In an era marked by the end of the dictatorship and the democratic rebirth, Costus knew how to masterfully capture the essence of a generation hungry for expression and eager for rupture.

His style, deeply influenced by pop art, Spanish baroque and popular culture, gave life to a series of unique works that reinterpreted religious icons, historical figures and characters from Spanish folklore with boldness and humor. This

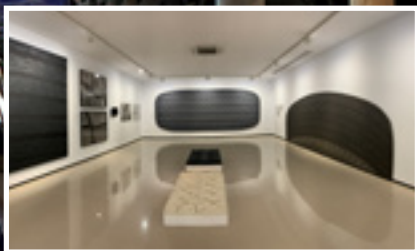

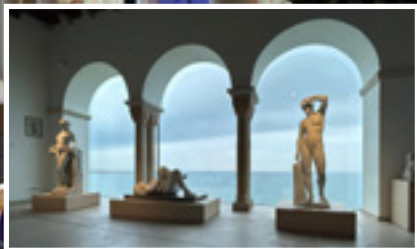

visual universe, saturated with color, irony and references, broke with established canons, connecting directly with the spirit of a youth that yearned for new forms of expression. Costus transformed the traditional into the avant-garde and converted the traditional into pure modernity. His work, imbued with satire and transgressive beauty, continues to be a visual manifesto against uniformity, against oblivion, against indifference.

Costus' art is a shining mirror that returned a vibrant, challenging and irreverent image of Spanish society in the eighties. Pioneers in embracing and making visible a queer aesthetic, they merged tradition and modernity in a chromatic and iconographic explosion, sharing the stage with other references such as Pedro Almodóvar, Tino Casal, Olvido Gara (Alaska) and Fabio McNamara, shaping the collective imagination of an emblematic era.

To claim Costus is to reaffirm that democracy and freedom always make the best of our culture flourish; it is to defend that what is different, disruptive, will always have a place as long as there are people willing to break molds and overcome barriers. Costus lives today not only in his works, but in every gesture of freedom, every act of nonconformity, every impulse that leads us to question the established.

Enjoy our heritage!
